

TECHNICAL SPECIFICATIONS FOR DIESEL GENERATORS 2×10 kVA (PORTABLE – CANOPY) TYPE

CONTENTS	Page
1 General	
1.1 Applications.....	2
1.2 Site conditions	2
1.3 Documentations supplied with offer	2
1.4 Warranty Statements.....	3
2 Diesel Engine specifications	
2.1 Cooling System	4
2.2 Water Level Maintenance.....	4
2.3 Radiator	4
2.4 Output.....	4
2.5 Speed.....	4
2.7 Governor.....	4
2.8 No. Of Cylinders.....	4
2.9 Flywheel	5
2.10 Overload Capacity.....	5
2.11 Engine Aspiration.....	5
2.12 Standard That The Engine Should Meet.....	5
2.13 Silencer& Exhaust System	5
2.14 Starting System.....	5
2.15 Fuel system.....	5
2.16 Air Filter.....	5
2.17 Lubrication System.....	6
2.18 Flexible Coupling	6
2.19 Engine Protective Devices.....	6
2.20 Accessories	6
3 Alternator Specifications	
3.1 Alternator.....	7
3.2 Rating.....	7
3.3 Construction.....	7
3.4 Excitation System.....	7
3.5 Automatic Voltage Regulation (AVR)	8
3.6 Wave Shape.....	8
3.7 Overload And Short Circuits.....	8
3.8 Frame.....	9
3.9 Sensing Abnormal Condition.....	9
4 Generator Control Panel	
4.1 General.....	10
4.2 Control and Display unit (Electronic Card).....	10
4.3 Protections Devices	11
4.4 Terminals	12
5 Base Requirement	
5.1 Set Requirements.....	13
5.2 Wiring And Conduits.....	13
5.3 Labeling And Fixtures:	13
5.4 Finish	13
6 Canopy And Sound Proof Specifications	
6.1 Acoustic Enclosure.....	14
7 Documents And Drawings	
7.1 Engine And Alternator.....	15
7.2 Control Panel.....	15
7.3 Gen-set.....	15
